drumMUSTER

Rinse them out, round them up, run them in

drumMUSTER can now accept all agricultural and veterinary chemical containers from the Brown Range Waste Facility other than 1000L IBCs. There is no charge to drop off eligible containers at the waste facility.

Containers must be:

- 1) Rinsed until free of any visible chemical residue
- 2) Lids removed
- 3) Punctured if containers are metal

ChemClear

The waste facility will not accept leftover chemicals. *Dispose of your unwanted agricultural and veterinary chemicals safely with ChemClear.*

- 1) Register your chemicals by completing the ChemClear inventory form and emailing it to info@chemclear.org.au. The form can be edited on your device or printed out and can be downloaded from www.chemclear.org.au/register-your-chemical/. Chemicals can also be registered by calling toll free on 1800 008 182 or directly on the website.
- 2) They will respond with a collection quote.
- 3) Store safely on farm until ChemClear arranges for collection from an agreed location in Carnarvon. Collections are currently being done approximately once per year.

Chemicals that are officially part of the drumMUSTER scheme (Group 1 chemicals) are collected for free. Other chemicals or unknown chemicals (Group 2) will be quoted based on the amount and type of chemical.
